2026 NFHS Basketball Rules Changes

RULES CHANGES

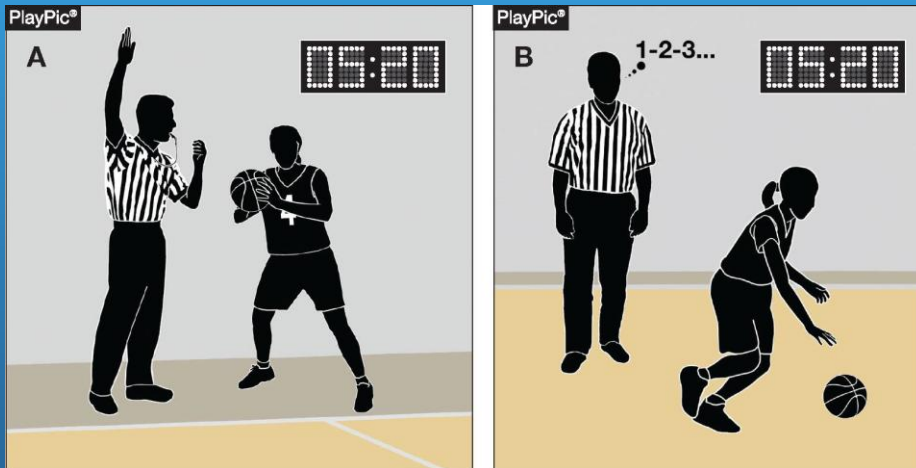

RE-STARTING THE CLOCK 5-9-5 (NEW)

- In the last 59.9 seconds of each quarter or extra period, if play is to be resumed by a throw-in or an unsuccessful free throw, a minimum of 3/10ths (.3) of a second must expire on the game clock when the ball is legally touched by a player inbounds.

RULES CHANGES

TIMING MISTAKES 5-10-2 NOTE (NEW)

- If the referee determines the clock malfunctioned or was not started/stopped properly, or if the clock did not run, an official's count, **visible or silent**, or other official information may be used to make a correction.

Timing Play

A1 is shooting a FT with 10.3 seconds left. A1 misses the FT and B1 gets the rebound and immediately calls time out. The clock shows:

- A. 10.3
- B. 10.1
- C. 9.9

In A and B, reset clock to 10.0. C no change.

Timing Play

A1 is shooting a FT with 10.3 seconds left. A1 misses the FT and B1 gets the rebound and immediately calls time out. The clock shows 9.0.

Can it be corrected?

Yes! If you use a silent count and don't reach one thousand one, then you have definite knowledge that 1 second didn't expire.

You can change clock to 10.0 only.

RULES CHANGES

ALTERNATING POSSESSION 6-4-4g

- The letter 'g' is now eliminated
- Play is stopped when there is team control, a goal is scored, or another official stoppage occurs. When play is properly stopped, the ensuing resumption is administered under the appropriate rule for the situation, rather than using the alternating possession procedure (Rule 4-36-2.c)
- This is not a rule change; this was inadvertently left in the rule after the rule change in 2025-26

RULES CHANGES

RESUMING PLAY DIFFERENCES 8-6-4a-d (NEW)

ART 4...When, during the same dead-ball period that follows an infraction or stoppage in play and before the ball becomes live, both teams are assessed technical fouls:

- a. All technical fouls are considered to have been committed at approximately the same time for the purposes of offsetting their penalties;
- b. All fouls are charged, and their penalties are identified;
- c. When there is an unequal number of fouls committed during the dead-ball period, play shall resume as if the last committed single administrative, team, substitute, player, or bench technical foul was the only foul committed; and
- d. If, after the cancellation of the penalties for an equal number of fouls by both teams, the game shall be resumed at the point of interruption.

RULES CHANGES

RESUMING PLAY DIFFERENCES 8-6-4a-d (NEW)

START OF DEAD-BALL PERIOD

All technical fouls committed during the same dead-ball period are considered to be **at approximately the same time**

END OF DEAD-BALL PERIOD

- 
- Officials' jurisdiction prior to the game
 - Whistle to end play
 - Horn to end play

- 
- During Pregame Warmup, Time-Outs, Between Quarters / Extra Periods
- Administrative (10-1)
 - Team (10-2)
 - Substitute (10-3)
 - Player (10-4)
 - Bench (10-5)
 - Head Coach (10-6)

- 
- When the ball becomes live
- On a jump ball, the official's hand(s)
 - On a throw-in, it is at the disposal of the thrower
 - On a free-throw, it is at the disposal of the free thrower

- All technical fouls committed during the same dead-ball period are considered to be at approximately the same time for purposes of offsetting their penalties
- Play resumes at the point of interruption

RULES CHANGES

RESUMING PLAY DIFFERENCES 8-6-4a-d (NEW)

- While (A) and (B) occur more than 13 minutes apart in the pregame warmup, they are considered to be at approximately the same time for purposes of offsetting their penalties

RULES CHANGES

RESUMING PLAY DIFFERENCES 8-6-4a-d (NEW)

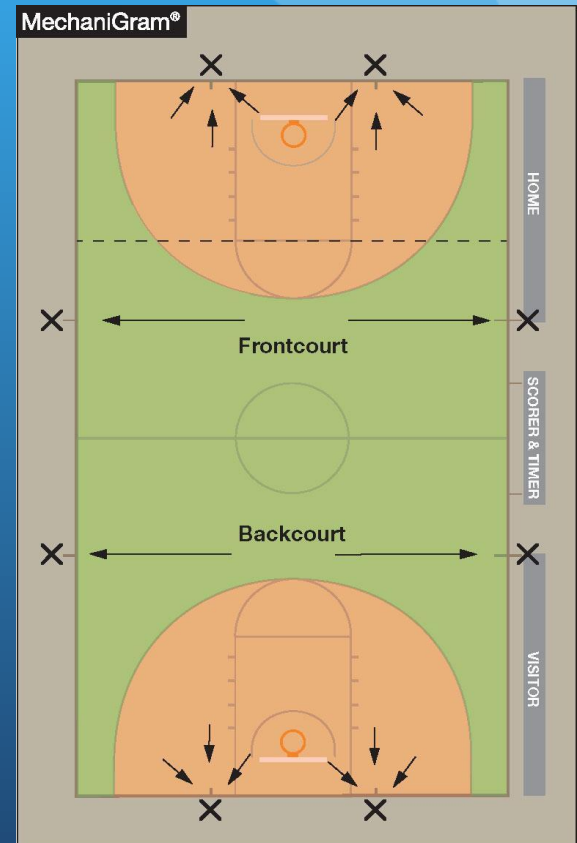

- Even though the unsporting technical fouls are committed at the start (A) and end (B) of the time-out, they are considered to be at approximately the same time for purposes of offsetting their penalties

RULES CHANGES

THROW-IN PROVISIONS 9-2 (PENALTY)

- When an infraction occurs on a throw-in, the location of the violation is the original throw-in spot
- If the original throw-in spot is not a designated spot, the ensuing throw-in is moved to such a spot (as indicated in the diagram)

2026 NFHS Basketball Editorial Changes

EDITORIAL CHANGES

ELECTRONIC DEVICES 1-19 NOTE (NEW)

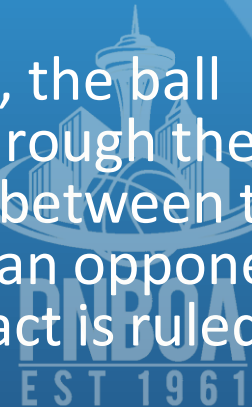

- **NOTE:** Communication between a coach and player through electronic devices is prohibited
- Hearing aids are legal

EDITORIAL CHANGES

AIRBORNE SHOOTER 4-1-1 EXCEPTION (NEW)

- A player is not considered an airborne shooter when legally hanging on the rim after a dunk attempt
- If the dunk attempt is successful, the ball becomes dead when it passes through the basket; any subsequent contact between the player who dunked the ball and an opponent shall be ignored unless the contact is ruled intentional or flagrant
- If the dunk attempt is unsuccessful and the ball remains live, any illegal contact between the player who attempted the dunk and an opponent shall be ruled a common foul and administered according to the bonus situation

BASKET INTERFERENCE

4-6-2

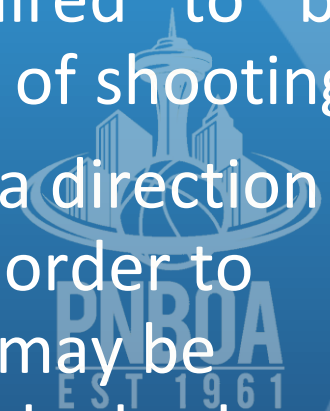

- Occurs when a player slaps or strikes the backboard, causing the backboard or ring to vibrate during a try for goal that has the possibility of entering the basket

CONTINUOUS MOTION

4.11.2 (SITUATION)

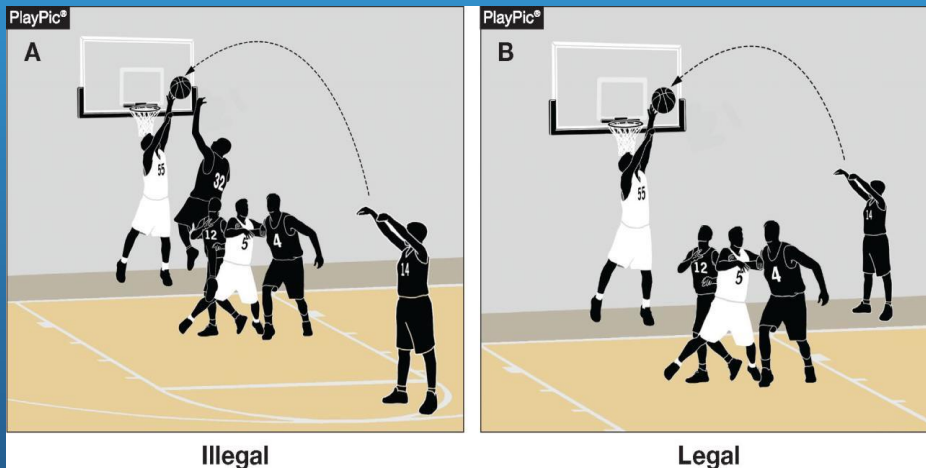

- Stepping or pivoting toward the basket is not required to be considered in the act of shooting
- A player may step in a direction that creates space in order to attempt a try, which may be lateral or away from the basket

EDITORIAL CHANGES

GOALTENDING

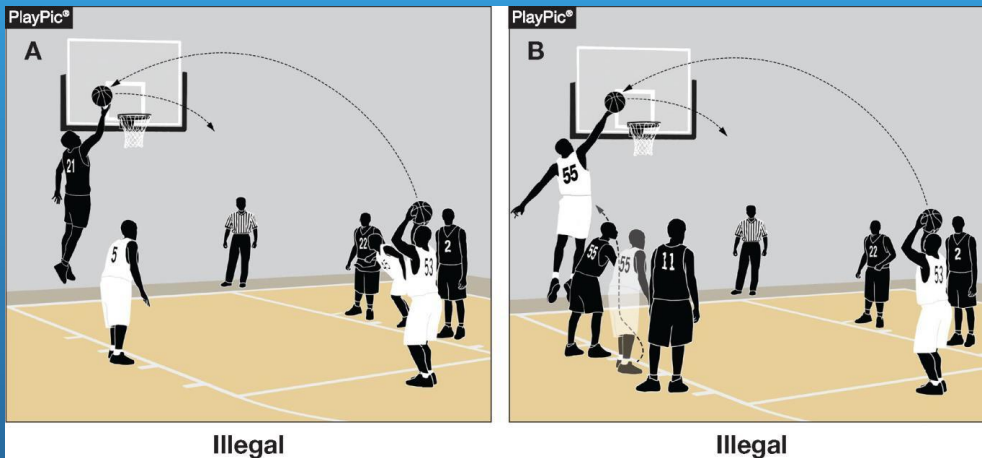

4-22-1 NOTE (NEW)

- When a defensive player touches a thrown or tapped ball while it is in its downward flight entirely above the basket, has the possibility of entering the basket and is not touching the basket cylinder
- Goaltending does not apply to a ball released on a throw-in pass

EDITORIAL CHANGES

GOALTENDING 4-22-2

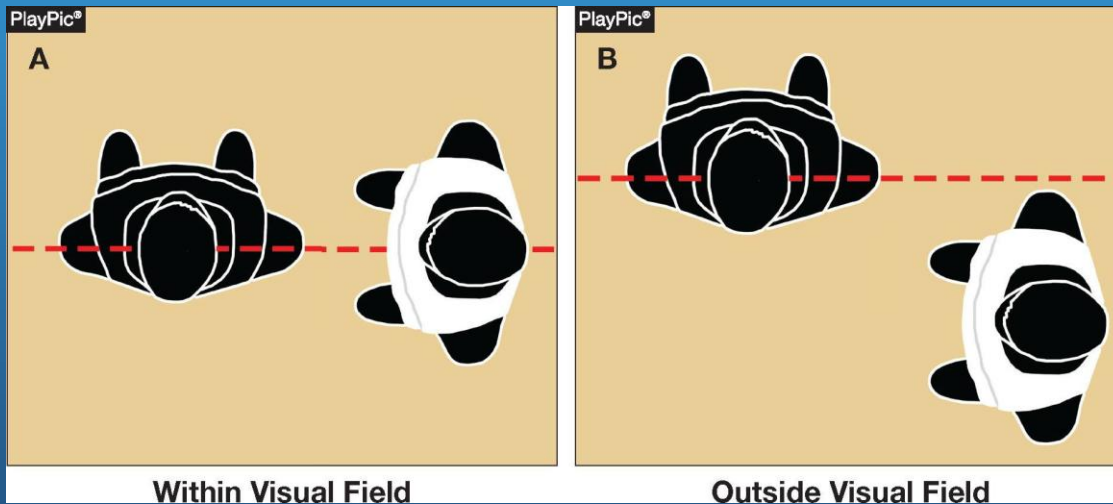

- When a player touches the ball outside the cylinder during a free-throw attempt
- Committing goaltending during a free throw is also a player technical foul (see 10-4-8)

EDITORIAL CHANGES

- The visual field of a player being screened includes the player's forward vision and peripheral vision and extends horizontally from the ear

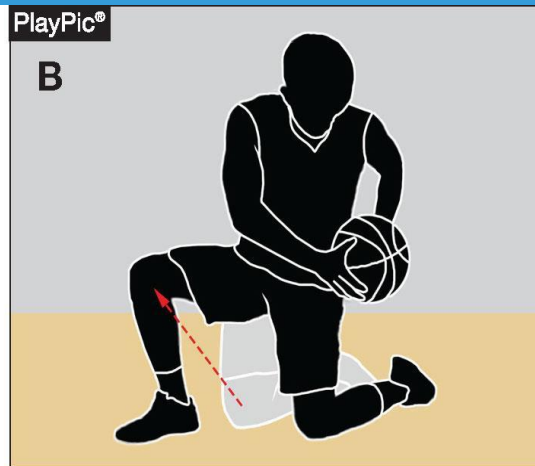

EDITORIAL CHANGES

- “When the official enters the center restraining circle” has replaced the former language “is ready”

EDITORIAL CHANGES

JUMP-BALL ADMINISTRATION 6-3-4 NOTE (NEW)

- Each jumper shall have both feet within their half of the center restraining circle.
- This restriction ends when the ball is touched by one or both jumpers

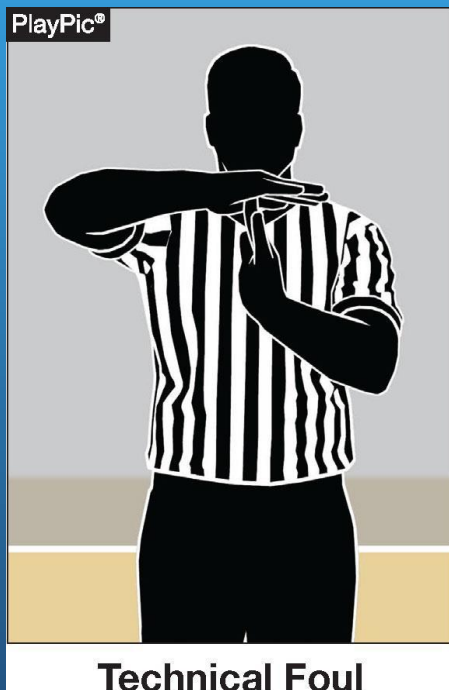

RESUMPTION-OF-PLAY PROCEDURE, THROW-INS 7-5-6c (NEW)

- When a throw-in violation occurs **during a division line throw-in**, the resulting throw-in shall remain at the division line opposite the scorer's and timer's table
- Clarifies that in this situation, the throw-in would not be moved to one of the eight designated spots to resume play
